- [Pull Request](#)

Retrospective

Start doing	Stop doing	Keep doing
<ul style="list-style-type: none">Research API documentation before integrations	<ul style="list-style-type: none">Compiling Sprint documents after deliverable	<ul style="list-style-type: none">Realistically estimating capacity
<ul style="list-style-type: none">Reordering backlog at beginning of Sprint		<ul style="list-style-type: none">60-80 story points
		<ul style="list-style-type: none">Reevaluating requirements on the fly

Met Estimate	Overestimated	Underestimated
<ul style="list-style-type: none">Sprint Aggregate	<ul style="list-style-type: none">Lat/Long Conversion	<ul style="list-style-type: none">Meta's API requirements for Instagram integration.
<ul style="list-style-type: none">Create/Edit Profile		<ul style="list-style-type: none">CircleCI configuration
<ul style="list-style-type: none">Search/Select Adventures		<ul style="list-style-type: none">Story Point requirements

Sprint in Review

Did we...

- ☒ Complete the Sprint Mission
- ☐ Complete all backlog items
- ☒ Finish on time
- ☒ The deliverable is a working software product
- ☒ The branch is merged to master

Auxiliary Action Items

- ☒ Sprint Forecast
- ☒ Test-Driven Development
- ☐ Behavior-Driven Development
- ☒ CI/CD Pipeline
- ☒ Complete Daily Scrums
